

The Complete List of Curt Teich Large Letter Postcards 1933-1956

The following is a list by production number of all Curt Teich large letter postcards of the linen era. The letter in the first two alpha-numeric characters of the production number represents the decade with "A" representing the 30s, "B" representing the 40s, "C" the 50s and so on. The first digit represents the year within the decade, so that 3A, for example, stood for 1933. The number that follows is the number of the card produced within that year, either preceded or followed by a code that designated the printing process. A preceding "H" denoted the "ART-COLORTONE" process and an "N" following the number denoted the "AMERICAN ART" process. Teich made large letter liners from 1933 to 1956, with its peak year in 1942 in which nearly a 100 different cards were manufactured.
